Profile

Rohan Modi, aspiring full-stack developer and MCA student with a passion for coding and creativity. Skilled in MERN stack development, building modern web applications with clean UI and strong logic. Always learning, improving, and exploring new technologies to create innovative digital solutions.

Projects

Blog Writing Website (Lekh-Verse) – MERN Stack
Developed a full-stack blogging platform with user authentication, article creation, editing, and publishing features. Implemented a responsive UI and dynamic content management system for smooth user experience.

Online Animal Encyclopedia – MERN Stack
Built an educational web application that provides categorized animal information with search functionality. Focused on user-friendly design, structured data display, and interactive browsing.

Netflix Android UI – Figma Prototype
Designed a modern Netflix-inspired Android UI using Figma, focusing on layout structure, color schemes, and user experience.
